

## What if your employees could see a doctor without leaving their home or work?

### They can with LiveHealth Online!

You know what it's like when your employees need to see a doctor. They may have to take a longer lunch break, work a shortened day or even take a day off. And if they can't get in to see their doctors, they might come to work sick and expose others to their illness. In some cases, they might even go to the emergency room. All of this can hurt workplace productivity and make everyone's health care costs go up.

### Introducing LiveHealth Online — the quick and easy way to see a doctor anywhere your employees have an Internet connection.

Now when your employees have health care questions or are under the weather, they don't have to schedule an appointment, drive to the doctor's office or hang around in crowded waiting rooms. In fact, they don't even have to leave their home or work.

LiveHealth Online is a new communications tool that lets your employees talk to doctors online by two-way video on a computer. Doctors can answer questions, make a diagnosis and may prescribe certain medications as permitted by state law.

### Here's why your employees will love LiveHealth Online:

- They can use it at work, at home, anywhere that LiveHealth Online is available. Employees never need an appointment.
- It's fast. They can log in and talk to a doctor within a few minutes.
- Doctors are available 24 hours a day, seven days a week.
- It's private and secure, and they can choose a board-certified doctor.
- When needed, prescriptions are emailed right to employees' local pharmacies, if that information is given to the doctor.
- It's affordable. Employee members can use the tool, as part of their health plan, at the cost of their PCP office visit copay.
- Family and friends who aren't members can use it too, but pay the full price for the visit. Doctors using the LiveHealth Online tool charge a flat rate of \$49.

## Here's why you'll love LiveHealth Online:

- **Reduced health care costs.** When employees choose to see doctors online instead of going to the ER, urgent care centers, or retail health clinics, everyone saves money.
- **Higher productivity.** Employees may be absent less and not come to work sick because they can't find time to get to the doctor.
- **Happier, less stressed employees.** Employees will enjoy how fast and easy it is to see a doctor online and get the care they need.
- **High satisfaction rates.** Users of online care report high satisfaction results: 92% report a "good," "very good" or "excellent" experience.<sup>1</sup>
